

JEFFREY W. BIRNS, M.D., F.A.C.S., F.A.A.P
ALI M. STROCKER, M.D.
PEDIATRIC OTOLARYNGOLOGY/HEAD & NECK SURGERY
ADULT SINUS SURGERY

To: Patients and Families

During your appointment your doctor may decide that a treatment is necessary, or a diagnostic procedure needs to be performed. Such treatments or procedures might include but are not limited to:

Nasal cauterization (For nosebleeds)
Direct Fiberoptic Laryngoscopy (For hoarseness, noisy breathing)
Direct Fiberoptic Nasopharyngoscopy (For noisy breathing, snoring)
Removal of foreign body from nose, ear, etc
Hearing Tests

If you have a deductible or co-insurance on your plan, the fee for additional services would be in addition to the office visit fee. If you have any questions regarding these fees, please ask.

We strive to provide the highest quality of care to our patients. Your insurance company makes the rules concerning billing and your out of pocket costs. As always, we encourage families to contact their elected representatives to seek insurance reform.

Sincerely,

Jeffrey W. Birns, M.D.

Ali M. Strocker, M.D.

I have read and understand the above
